Your Next Digital Evolution.

An integrated portfolio of technology, marketing, creative, media and staffing solutions

TECHNOLOGY • DIGITAL GROWTH • CREATIVE • MEDIA • STAFFING

1. About DIGIBU

DIGIBU Technologies Private Limited is a multi-service technology and business solutions company committed to helping businesses grow through innovation, technology, creativity, digital marketing, media production and talent solutions.

The company is organised into five specialised divisions. Each division focuses on a defined service area, while the divisions can collaborate to deliver complete solutions through one coordinated team.

2. Our five service divisions

DIVISION	CORE FOCUS
DIGIBU IT	Websites, software, mobile applications and IT consulting
DIGIBU Digital	Digital marketing, SEO, social media, advertising and lead generation
DIGIBU Creative	Brand identity, graphic design and business presentations
DIGIBU Media	Photography, videography, podcast production, video shooting and editing
DIGIBU Staffing	Recruitment, talent sourcing and workforce solutions

3. DIGIBU IT

SOFTWARE, WEBSITE AND APPLICATION DEVELOPMENT

Purpose: Provide technology solutions that help businesses establish their digital presence, automate operations and improve productivity.

Services offered

A. Website design and development

- Corporate and business websites; e-commerce websites; portfolio and personal websites.
- Landing pages, website redesign and modernisation, and WordPress development.
- Website maintenance, technical support, domain and web-hosting assistance.

B. Software development

- Custom business software, CRM and ERP solutions.
- Inventory and stock management; billing and invoicing software.
- Employee and HR management; attendance and payroll software.
- Project and task management systems.

C. Mobile application development

- Android, iOS and cross-platform applications.
- E-commerce and shopping applications; business management applications.
- Appointment and booking applications; employee management applications.
- Customer service and support applications.

D. UI/UX design

- Website and mobile application interface design.
- Dashboard and admin panel design; wireframes and interactive prototypes.
- User experience research, user journeys, workflow design and usability improvements.

E. IT consulting and technical support

- IT infrastructure and digital transformation consulting.
- Business process automation; API and third-party software integrations.
- Database management, software troubleshooting and website performance optimisation.
- Cloud deployment and technical maintenance.

How we deliver the service

› Discovery and requirement discussion – understand the business, users, objectives and required features.

› Scope and proposal – define deliverables, timeline, responsibilities, technology approach and charges.

› Planning and design – prepare the sitemap, workflows, wireframes or system architecture.

› Development – build the agreed website, software or application in planned stages.

› Testing and client review – check functionality, usability, compatibility and resolve agreed issues.

› Launch and handover – deploy the solution and provide access, documentation and basic guidance.

› Ongoing support – provide maintenance or an annual maintenance contract where agreed.

Typical clients: Startups, small and medium businesses, educational institutions, retail businesses, real estate companies and established organisations.

Revenue models: Website and software projects, mobile application projects, monthly maintenance packages, annual maintenance contracts (AMC) and IT consulting fees.

4. DIGIBU Digital

DIGITAL MARKETING, SEO AND ONLINE BUSINESS GROWTH

Purpose: Help businesses increase online visibility, attract potential customers, generate enquiries and improve sales through digital marketing.

Services offered

A. Social media management

- Instagram, Facebook and LinkedIn business account management.
- Social media strategy and monthly content calendar preparation.
- Post scheduling and publishing; caption and hashtag research.
- Audience engagement, community management and monthly performance reports.

B. Search engine optimisation (SEO)

- Website SEO audits and keyword research.
- On-page and off-page SEO; technical SEO recommendations.
- Local SEO and Google Business Profile management.
- Competitor SEO analysis; website traffic and keyword performance tracking.

C. Online advertising and paid campaigns

- Google Search Ads, Display Ads and YouTube advertising.
- Facebook, Instagram and LinkedIn advertising.
- Lead generation, remarketing and retargeting campaigns.
- Advertising performance monitoring and optimisation.

D. Lead generation

- Potential customer research and target audience identification.

- B2B and B2C lead generation; business contact research.
- Campaign planning, landing page and enquiry form planning.
- CRM integration, lead tracking and reporting.

E. Content marketing

- Website content planning and SEO blog writing.
- Social media content, promotional captions and copywriting.
- Product and service descriptions; email newsletter content.
- Business promotional campaigns.

F. WhatsApp and email marketing

- WhatsApp Business profile setup and customer enquiry workflows.
- WhatsApp campaign planning and email marketing campaigns.
- Newsletter management and automated follow-up sequences.
- Customer communication templates and campaign performance reports.

How we deliver the service

› Business and audience review – understand the offer, target customers, locations and business goals.

› Marketing audit and strategy – review existing channels, competitors and opportunities.

› Campaign plan – agree content themes, platforms, keywords, advertising plan and schedule.

› Content and campaign setup – prepare posts, copy, tracking, landing pages and campaign settings.

› Publishing and execution – publish content and launch approved campaigns.

› Monitoring and optimisation – review engagement, traffic, enquiries and campaign performance.

› Monthly reporting and next steps – share results and recommend improvements.

Typical clients: Real estate companies, interior design firms, restaurants, retail businesses, educational institutions, healthcare providers, startups and professional service providers.

Revenue models: Monthly digital marketing packages, SEO retainers, advertising management fees, lead generation packages and individual marketing campaigns.

Important note: Advertising platform budgets are separate from DIGIBU's professional service charges. Marketing communications should follow applicable consent, privacy and opt-out requirements.

5. DIGIBU Creative

BRANDING, GRAPHIC DESIGN AND VISUAL COMMUNICATION

Purpose: Create professional brand identities and visual materials that help businesses build recognition, communicate effectively and establish a strong market presence.

Services offered

A. Brand identity and logo design

- Business logo design and logo redesign or modernisation.
- Brand colour palette and typography selection.
- Brand identity development, positioning and visual direction.
- Corporate identity design and brand guidelines.

B. Corporate graphic design

- Business cards, letterheads and envelopes.
- Company profiles, corporate brochures and business proposals.

- Business presentations, product catalogues and corporate stationery.
- Annual report layouts.

C. Social media graphic design

- Instagram posts, stories and carousel designs.
- Facebook promotional creatives and LinkedIn post designs.
- YouTube thumbnails, festival and event creatives.
- Social media templates and promotional campaign graphics.

D. Marketing and advertising design

- Flyers, pamphlets, posters and banners.
- Promotional advertisements and product advertising creatives.
- Event invitations, exhibition and stall graphics.
- Outdoor advertising artwork, digital campaign creatives and marketing presentation materials.

E. Packaging and product design

- Product packaging concepts and packaging layouts.
- Product labels and stickers; product mockups.
- Merchandise artwork and branding for product collections.

F. Presentation and digital design

- Corporate PowerPoint presentations and business pitch decks.
- Investor, sales and marketing presentations.
- Company introduction presentations.
- Website, mobile application screen and dashboard visual design.

How we deliver the service

› Brief collection – understand the business, audience, purpose, format and required deliverables.

› Creative direction – agree the visual style, references, colours and design approach.

› Initial concepts – prepare the agreed number of concepts or draft layouts.

› Client review – collect consolidated feedback and confirm revisions within the agreed scope.

› Final artwork – complete approved designs and prepare print or digital-ready files.

› Handover – deliver agreed file formats and brand assets.

Typical clients: Startups, entrepreneurs, manufacturers, retail businesses, real estate companies, interior designers, restaurants and corporate organisations.

Revenue models: Logo design packages, complete branding packages, monthly graphic design retainers, presentation projects, corporate profile design and marketing creative assignments.

6. DIGIBU Media

PHOTOGRAPHY, VIDEOGRAPHY, PODCAST PRODUCTION AND VIDEO CONTENT

Purpose: Create engaging visual and audio content that helps businesses promote their products, services, projects and brand identity.

Services offered

A. Podcast production

- Podcast studio setup and recording.

- Audio and video podcast shooting.
- Podcast editing and mixing.
- YouTube podcast episodes; podcast reels and short clips.

B. Professional photography

- Product, corporate and event photography.
- Food and restaurant photography.
- Architecture and interior photography.
- Personal and professional portfolio photography.

C. Videography and video shooting

- Corporate, event, wedding and function videography.
- Real estate, interior and architectural videography.
- Promotional video shooting and social media content shoots.
- Interviews, testimonials and company profile videos.

D. Business and promotional video production

- Instagram Reels and YouTube Shorts.
- Business promotional videos and brand advertisements.
- Product demonstrations, product advertisements and launch videos.
- Service promotion, brand awareness and e-commerce product videos.
- Company culture, employee introduction and customer testimonial videos.

E. Real estate and project media

- Interior design project walkthroughs and 3D render presentation videos.
- Property, villa and apartment walkthroughs.
- Construction progress and site visit videos.
- Before-and-after interior transformation and commercial space promotional videos.

F. Post-production and editing

- Professional, corporate, promotional, social media and YouTube video editing.
- Short-form video editing, resizing and formatting.
- Colour correction and grading; audio cleaning and sound enhancement.
- Subtitles, captions, motion graphics and visual effects.
- Animated logos, intro/outro animations, explainers and 2D animation.

G. Production support

- Video shoot planning, script and storyboard preparation.
- Camera and lighting arrangements; voice-over coordination.
- On-site video production and photography support.

How we deliver the service

› Creative brief – identify the purpose, audience, platforms, locations and content requirements.

› Pre-production – plan the concept, script, storyboard, shot list, schedule and production arrangements.

› Shoot or recording – carry out the agreed photography, video shoot or podcast recording.

› Editing and post-production – edit footage/audio, apply colour and sound work, add graphics and captions.

› Review and revisions – share a preview and complete revisions within the agreed scope.

› Final delivery – export approved files in the agreed formats and aspect ratios.

› Content repurposing – where included, prepare shorter clips or platform-specific versions.

Typical clients: Corporate companies, startups, real estate firms, interior designers, construction companies, restaurants, retail brands, educational institutions and content creators.

Revenue models: Per-video editing charges, monthly reels packages, podcast packages, corporate video production, photography assignments, promotional campaign packages and complete video production projects.

7. DIGIBU Staffing

RECRUITMENT, TALENT SOURCING AND WORKFORCE SOLUTIONS

Purpose: Connect businesses with suitable candidates through recruitment support, talent acquisition and workforce management solutions.

Services offered

A. IT recruitment

- Software, front-end, back-end and full-stack developer recruitment.
- UI/UX designers and mobile application developers.
- Data analysts, cloud and DevOps professionals.
- Cybersecurity professionals, IT support and system administrators.

B. Non-IT recruitment

- Sales and marketing; human resources; finance and accounting.
- Customer support; administration and office staff.
- Operations and management; business development executives.
- Data entry, back-office, receptionist and front-office roles.

C. Talent sourcing and candidate screening

- Job requirement analysis and candidate sourcing through recruitment platforms.
- Resume screening and shortlisting; initial candidate interviews.
- Technical interview and skill assessment coordination.
- Salary expectation screening; interview scheduling and follow-ups.
- Candidate database management.

D. Staffing solutions

- Permanent employee recruitment.
- Temporary, contract-based and project-based staffing coordination.
- Remote workforce recruitment and dedicated IT resource sourcing.
- Bulk recruitment support; executive and specialist hiring.

E. Recruitment process outsourcing (RPO)

- End-to-end recruitment support and recruitment planning.
- Job description preparation and candidate pipeline management.
- Interview coordination and recruitment progress reporting.
- Hiring process improvement and recruitment documentation support.

F. HR and workforce support

- Employee onboarding coordination and recruitment documentation assistance.
- Candidate database maintenance and workforce planning support.

- Employee skill mapping and recruitment performance reports.
- Employer branding support and recruitment process consulting.

How we deliver the service

› Hiring discussion – understand the role, skills, experience, location, salary range and hiring timeline.

› Recruitment plan – confirm the sourcing strategy, screening criteria and service arrangement.

› Candidate sourcing – identify potential candidates through suitable recruitment channels.

› Screening and shortlisting – review resumes and conduct agreed initial screening.

› Interview coordination – arrange client interviews and coordinate candidate communication.

› Selection and offer coordination – support the agreed selection and offer process.

› Closure and reporting – confirm the hiring outcome and provide agreed recruitment updates.

Typical clients: IT companies, startups, software development firms, manufacturing companies, corporate organisations, BPOs, educational institutions and growing businesses.

Revenue models: Per-candidate placement fees, recruitment service agreements, monthly recruitment retainers, RPO contracts and staffing coordination fees.

Important note: Recruitment and candidate placement are different from directly employing and supplying contract workers. If DIGIBU intends to provide contract labour, payroll or workforce deployment, obtain appropriate legal and compliance advice on applicable Indian labour laws, registrations, licences and employer responsibilities.

8. Integrated business packages

The five divisions can collaborate to provide complete solutions. The exact scope, deliverables, timeline and fees should be confirmed in the client proposal.

PACKAGE	INCLUDED SERVICES
Business Launch Package	Website, logo, company profile and digital marketing setup.
Digital Growth Package	Social media management, SEO, paid advertising and lead generation.
Corporate Branding Package	Logo, brand identity, brochure, presentation and promotional video.
Real Estate Promotion Package	Website, property reels, promotional videos and lead generation.
IT Development Package	Website, mobile application, CRM and technical support.
Recruitment Support Package	Job posting, candidate sourcing, screening and recruitment coordination.
Content-to-Marketing Package	Photography or video production by DIGIBU Media, followed by social media publishing and advertising through DIGIBU Digital.

9. Standard client engagement process

The following process provides a consistent experience across all divisions:

› Initial enquiry – receive the client's enquiry and understand the broad requirement.

› Discovery meeting – discuss business goals, audience, current situation, expectations and constraints.

› Requirement confirmation – document the services, deliverables, exclusions and success measures.

› Proposal and quotation – submit scope, pricing, estimated timeline, payment terms and validity.

› Approval and onboarding – obtain written approval, agreed advance/payment and required content or access.

› Planning and execution – assign the responsible division, prepare a schedule and begin the work.

› Review and approval – share milestones or drafts and collect consolidated client feedback.

› Final delivery – hand over the approved deliverables in the agreed formats.

› Support and follow-up – provide included support, maintenance or recurring services and discuss next steps.

10. Business and revenue model

- Project-based services – one-time charges for websites, software, branding, videos and presentations.
- Monthly packages – recurring charges for digital marketing, social media management, SEO and IT support.
- Annual contracts – maintenance, technical support and long-term business service agreements.
- Recruitment fees – placement charges and recruitment service agreements.
- Consulting services – professional fees for IT, digital marketing, branding and recruitment consulting.

11. Company profile description

DIGIBU Technologies Private Limited

DIGIBU Technologies Private Limited is a multi-service technology and business solutions company committed to helping businesses grow through innovation, technology, creativity, digital marketing, media production and talent solutions.

Through five specialised divisions—DIGIBU IT, DIGIBU Digital, DIGIBU Creative, DIGIBU Media and DIGIBU Staffing—we deliver software and technology solutions, online business growth, professional brand communication, media content and recruitment support.

Our objective is to provide reliable, innovative and integrated business services under one brand, helping organisations establish their presence, improve operations and achieve sustainable growth.

12. Service engagement notes

- A written proposal or quotation should confirm the exact scope, deliverables, timeline, fees and payment terms for each assignment.
- Third-party costs such as advertising budgets, domain registration, hosting, stock assets, travel, venue or production rentals should be identified separately where applicable.
- The number of concepts, revision rounds, shoot hours, deliverable formats and support period should be agreed before work begins.
- Client approvals, access credentials and required content should be provided on time to help maintain the agreed schedule.
- Any statutory, licensing, privacy, consent or labour-law requirements relevant to a service should be checked before the work is undertaken.
